A

U-value for the entire window:
As from 0,7 W/m² K

Noise reduction:
Up to 40 dB Rw+Ctr

E_{ref}:
+12 - +20 kWh/m²/year

Materials:
Wood/aluminium/composite
of recycle plastic

// THE SLIMMEST PROFILE WITHIN THE TRADE

With an only 30 mm frame width the profile is the slimmest profile within this trade.

// ELEGANT DESIGN

Thanks to the small frames KRONE View is an elegant window which fits into all houses. The large window space ensures a beautiful inflow of light and an undisturbed view.

// THE IDEAL CHOICE FOR FACADE SOLUTIONS

The windows are available in very large sizes and due to the slim design they are the perfect choice when building together more elements.

// OPTIONAL TYPE OF WOOD

The inside of the window is available in a variety of wood species. Contact us and tell us what you prefer.

// EASY MAINTENANCE

The outer aluminium part and the composite rebate ensures a long life and minimal maintenance.

// ENERGY AND ENVIRONMENT

Available with a triple-glazed low-energy glass, this window meets even the strictest requirements of the building regulations.

// CHILD PROTECTION

All our windows and doors can be optionally fitted with child-protection.

// PROFESSIONEL CALCULATION

We should be happy to make our expertise available to you and help you find the optimal solution in accordance with current legislation
