

KRONE View®

Wood/aluminium window
- With the slimmest profile on the market

Energy class:
A

U-value for the entire window:
0,38-0,9 W/m² K

Noise reduction:
Up to 45 dB Rw+Ctr

E_{ref}:
+15-+30 kWh/m²

Materials:
Wood/aluminium/composite of recycled plastic

// THE SLIMMEST PROFILE WITHIN THE TRADE
With an only 30 mm frame width the profile is the slimmest profile within this trade.

// CHILD PROTECTION
All our windows and doors can be optionally fitted with child-protection.

// ELEGANT DESIGN
Thanks to the small frames KRONE View is an elegant window which fits into all houses. The large window space ensures a beautiful inflow of light and an undisturbed view.

// PROFESSIONEL CALCULATION
We should be happy to make our expertise available to you and help you find the optimal solution in accordance with current legislation.

// THE IDEAL CHOICE FOR FACADE SOLUTIONS
The windows are available in very large sizes and due to the slim design they are the perfect choice when building together more elements.

// OPTIONAL TYPE OF WOOD
The inside of the window is available in a variety of wood species. Contact us and tell us what you prefer.

// EASY MAINTENANCE
The outer aluminium part and the composite rebate ensures a long life and minimal maintenance

// ENERGY AND ENVIRONMENT
Available with a triple-glazed low-energy glass, this window meets even the strictest requirements of the building regulations.
